Not sure you got this A9 US side input from Heather / Doug.. I've inserted into the Master PRP attached. But the A9 US input is also a separate attachment if you worked on the 2:45pm draft I sent yesterday you're probably better off re-incorporating the new A9 input into your version. I've incorporated a status/changelog on pg 1 which is probably a handy thing for us to know off the remaining areas.

Hi All!

Here are responses to the edits requested/questions posed on the US text. Doug, has reviewed as well. Thus we have US co-chair concurrence on these final edits.

Best,

Heather Stirratt (on behalf of Doug)

Hi All!

I'm looking at this now via remote link. Will have comments back to the group to forward along shortly.

Hi Doug/Heather,

My apologies for bothering you again while you're out of the office but I gather there is still some feedback required from the US side on this report. I think the deadline is actually today if either of you are able to either respond to comments. I think we're all good from the ECCC side.

Also with respect to my earlier email I just wanted to discuss if we had speaking notes/slides ready to go for GLEC and if not who would take lead on that front?

Cheers and apologies for any confusion,

Patrick

Just a reminder that today COB is the deadline for providing edits and responding to questions in the PRP. At this time, we are still waiting for feedback from Annex 9 and Annex 10.

The most current version of the PRP is attached.

Thanks!
